Three snow storms are the salvation of new mill men as well as the farmers. But what little snow there is at present will soon disappear unless it is replenished quite often.

We have had another spell of winter. Blighing has been good for a few days, and the road from Kamas to Park City has been literally freed with teams freighting lumber to the mines.

Having a Run on Chamberlain's Cough Remedy.

Between the hours of eleven o'clock a. m. and closing time at night on Jan. 26th 1901, A. I. Clark, druggist, Glade Springs, Va., sold twelve bottles of Chamberlain's Cough Remedy. He says, "I never handled a medicine that sold better or gave better satisfaction to my customers."

This Remedy has been in general use in Virginia for many years, and the people there are well acquainted with its excellent qualities. Many of them have testified to the remarkable cures which it has effected. When you need a good reliable medicine for a cough or cold, or attack of the grip, use Chamberlain's Cough Remedy and you are certain to be more than pleased with the quick cure which it affords. For sale by John Boyden & Son Druggists.

Fire at Kamas.

Word was received here Wednesday evening that the new new meeting house at Kamas had been burned to the ground. The report could hardly be credited at first, but it was found to be true. Although the structure was built close to the creek, the fire could not be put out.

It is supposed that the fire originated by some boys trying to burn the roof out of the chimney, and in some way the fire caught the wood near the roof.

When the fire was first discovered it could easily have been put out if there had been any means to throw the water up to where the fire was discovered, but as it had such a good start it was only a few minutes before the whole building was in flames, and all efforts to save it were in vain. A fierce wind was blowing, which made it burn the more rapidly. Sparks flew over to some barns, etc., north of the meeting house, but with good hard work the property was saved.

This is a very heavy loss to the people of Kamas, as they have worked hard to build them a suitable place to worship in; and the building was a good one, with a seating capacity of about 600. It had only been in use about six months, and about two months ago saw new opera chairs and a first-class heater had been put in the building at a cost of about \$700.

The arrangement of the seats had just been completed the day the fire occurred. It is estimated that the total loss would be about \$5,000. No insurance was on the building.

Can't Keep It Secret.

The splendid work of Dr. King's New Life Pills is daily coming to light. No such grand remedy for Liver and Bowel trouble was ever known before. Thousands bless their stars for having discovered this Headache, Biliousness, Jaundice and Indigestion. Try them. See at Boyden's drug store.

PIONEER GONE.

James M. Hixson of Wanship Passes to the Great Beyond.

Another pioneer of Summit county passed away this week. James M. Hixson who died at his home in Wanship last Sunday evening, aged 66 years 11 months and 3 days. Mr. Hixson had been a sufferer for several months from inflammation of the stomach, which finally brought about his death.

James M. Hixson was born in Montgomery county, Ind., April 8, 1834. He came to Utah in the year 1858 with Capt. James B. Brown's handcart company, and has been a resident of Summit county for twenty-nine years. He has raised a good family of children, all of whom are prominent citizens of this county. One son is now bishop of Wanship, while another son is in Australia on a mission. The deceased has been a prominent figure in the development of this county, was well-respected and had a host of friends who will greatly mourn his loss.

The funeral was held from the Wanship meeting house Tuesday afternoon, and was largely attended. The speakers were Elders W. W. Claff, C. A. Caille and President Taylor.

A Pioneer Greatly Surprised.

"I never was so much surprised in my life, as I was with the results of using Chamberlain's Pain Balm," says Henry T. Cook, prospector of the Ashwell, O. O. Gazette. "I contracted a severe case of rheumatism early last winter by getting my feet wet. I tried several things for it without success. One day while looking over the Gazette, I noticed the Pain Balm was positively guaranteed to cure rheumatism, so I bought a bottle of it and before being two thirds of it, my rheumatism had taken its flight and have not had rheumatic pain since, sold by John Boyden & Son Druggists."

AS TRUE AS GOSPEL.

Let us be content to work. To do the thing we can, and not presume to fret because it is little.

To be able to use the tongue fluently is undoubtedly a great advantage in many cases; but the power to keep silence is equally advantageous.

Let it be our happiness this day to add to the happiness of those around us, to comfort some sorrow, to relieve some want and to add some strength to our neighbor's virtue.

The true democratic idea is not that every man shall be on a level with every other man, but that every man shall be what God made him, without let or hindrance.

It is good for every man and woman to choose times for quiet meditation for reviewing his or her experience and accepting therein improvement may be made upon his or her record.

The most permanent attachments are those of which the stream flows smoothly and silently. Custom sits comfortably by the drawing room fire, long after settlement has been torn out of doors into the street.

Hasty judgment of the actions of others is dangerous and often unjust. We measure too much by superficial appearance, and condemn hastily when, if we knew all and understood the motive and reasons, we should warmly approve.

He best loves his country who desires for her most precious of all possessions, justice, honesty, equity and clarity, who will not surrender oppression in any form, nor give his full efforts to the cause of national pride, or egoism, or prejudice, or ostracism within or without her borders.

A Remedy for Worry.

"Ah neighbor," said one farmer, dolefully to another, "how unfortunate you and I have been! I've done nothing but fret ever since our potatoes were destroyed by that untimely frost. But how is this?" he asked in amazement,—"You seem to have a fine, healthy crop coming up now."

"Why, yes," was the reply, "I planted these directly after I found the first crop was destroyed."

"What! and they're coming up already?"

"Yes, while you were fretting, I was working. I put off my fretting till I'd minded the loss."

"Why, then, you've so seed in fret at all."

"True, and that's the very reason I don't."

The Vice Of Nagging.

Clouds the happiness of the home, but a nagging woman often needs help. She may be so nervous and a run-down in health that trifles annoy her. If she is restless, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Kieley's Bitters, the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, headache and weak kidneys have used it, and become healthy and happy. Try it. Only 50c. John Boyden & Son Druggists guarantee satisfaction.

Sue Called Off.

The big irrigation suit that was started last week by the Hopper and Wilson Ditch companies (see Ogden has been called off for present at least. The delegates from Summit and Morgan counties who attended the State convention at Salt Lake last week and the Ogden delegation met together and arranged to postpone the suit providing a delegate from each town would be sent to Ogden today to meet the members of the two ditch companies and make some arrangement for the distribution of the water of Weber river this season.

Accordingly delegates from each town have been named and they are now in Ogden arranging with the Wilson and Hopper Ditch companies for some one to look after the proper distribution of the water this summer.

We believe that this move is the very best thing that could have been done, as the great expense of a law suit will be avoided and more satisfaction given to all the people. It is the intention of the irrigators to have a law passed by the next legislature that will provide for the just distribution of all waters in the State.

Chronic Diarrhoea.

Mr. C. B. Wingfield, of Fair Play Mo., who suffered from chronic dysentery for thirty-five years, says Chamberlain's Colic, Cholera and Diarrhoea Remedy did him more good than any other medicine he had ever used. For sale by John Boyden & Son Druggists.

Work up Gravel Creek.

While coming down Gravel Creek canyon Tuesday with six cars of coal, the train was derailed. The accident occurred near Welch's place, and was probably caused by the truck spreading, derailing the last three cars and breaking up about 200 feet of track. The working crew was sent out from Evanston and put the cars back on the track Wednesday morning. No damage was done otherwise to train or cars.
